Pediatric Occupational Therapist Job – Chatham, NJ

Job Description

This OT job is part-time, with the opportunity for growth into a full-time position.

Responsibilities of this position include:

- Conducting initial assessments of new clients to determine appropriateness of OT services.
- Preparing written summaries of assessment findings for presentation to families.
- Meeting with families to report on assessment findings and review written summaries.
- Conducting individualized treatment sessions and, to a lesser extent, group treatment sessions with clients during which your strong foundation in the following skill sets will be drawn upon: sensory integration, fine motor skills/handwriting, gross motor skills, muscle tone and postural control, motor planning skills, visual perceptual skills, executive functions, social emotional intervention, self-regulation and behavior modification.
- Documentation of treatment sessions with supporting clinical notes.
- Communication with parents regarding therapy carryover at home following treatment sessions.
- Communication with teachers and other involved professionals as necessary to facilitate the therapy process in home and school environments.
- Conducting regular periodic meetings with families to report on progress of therapy and receive parent feedback.
- Managing your client caseload around clients' school and extracurricular activities to ensure treatment is provided consistently as recommended in the initial treatment program.

Job Requirements

- BS or MS in Occupational Therapy
- NBCOT Certification – State of New Jersey OT Licensure
- Two or more years of pediatric, private clinic experience
- Weekday afternoon and evening availability a must
- Saturday availability a plus

About Us

Harmony Pediatric Therapy is a private pediatric practice, which serves families in Morris, Essex and Union Counties. Our clinic is small and intimate, has a family centered approach and uses integrative techniques, including CranioSacral Therapy. We treat children from infancy through school age with challenges related to diagnoses such as: Developmental Delay, Autism, Sensory Processing Disorder, Anxiety, neurological disorders, language/speech impairments, Torticollis, Chronic Otitis and auditory processing challenges, reflux, constipation, sleep problems, allergies, and more.

Please e-mail resume and cover letter to kristen.clark@harmonypediatrictherapy.com for consideration. The interview process will begin immediately, as we are seeking to fill this OT job as soon as possible.
